SUMMARY

Fullstack Web Developer (**MERN Stack**) passionate about building fast, responsive, and user-focused applications. I specialize in turning ideas into scalable products using **MongoDB, Express.js, React, and Node.js**. I've built projects ranging from social media platforms and e-commerce systems to automation tools and WhatsApp bots. I enjoy working across the stack — crafting interactive frontends and designing efficient backend architectures.

PROJECTS

Circle APP

Express JS - React JS - PostgreSQL

Tangerang. Jul 2025 - Aug 2025

App : <https://dumbcircle.vercel.app>

Demo : <https://youtu.be/yyK3hmqQrA>

A social media application built with React.js and Tailwind CSS, designed for creating and sharing content within a vibrant community.

Instacard

Express JS - Next JS - PostgreSQL

Tangerang. Aug 2025 - Oct 2025

App : <https://try-instacard.vercel.app>

Demo : <https://youtu.be/IVMnW3KHUbk>

A digital business card and link-in-bio application, similar to Linktree, for consolidating your online presence.

My Store

Express JS - React JS - PostgreSQL

Tangerang. Aug 2025 - Oct 2025

App : <https://dumbstore.vercel.app>

Demo : <https://youtu.be/-qciEDEHmeQ>

An e-commerce platform featuring a mobile-first design and integrated with WhatsApp bot automation for seamless customer communication.

Todo App

Next JS - Supabase

Tangerang. Aug 2025 - Oct 2025

App : <https://dumbtodo.vercel.app>

Demo : <https://youtu.be/C-ZiIP8JVwl>

A Trello-like project management tool to organize tasks, track progress, and collaborate with teams in a visual workflow.

Chat App

Express JS - React Native - MongoDB

Tangerang. Jan 2026 - Feb 2026

App : <https://github.com/jeromedesantos/app-chat> | development

Demo : <https://youtu.be/IOh1yo2Unf0>

A chat application for mobile similar to WhatsApp build with React Native using Socket.io and Expo.

EXPERIENCES

PT. DumbWays Indonesia Teknologi

Full-Stack Developer - Internship

Depok. Aug 2025 - Oct 2025

- Full-Stack Developer Intern
- Contributed to hands-on full-stack development projects within a structured bootcamp and internship environment.
- Built full-stack applications using Express.js, React.js, and PostgreSQL, while completing additional technical assignments and participating in public presentation and soft-skill development activities.
- Demonstrated practical implementation of backend, frontend, and database integration in collaborative project settings.

Outrume

Video Editor

Remote. Jan 2023 - May 2024

- Content & Social Media Specialist.
- Responsible for increasing digital engagement and brand visibility across F&B and bridal industry clients.
- Edited high-performing short-form videos (Reels, Shorts, FYP), developed content strategies, and designed promotional assets using Adobe Photoshop and Illustrator.
- Managed multiple brand accounts including @bumkitchen, @bakmi.kun, and @cindy_bridal, with a focus on audience growth and engagement optimization.

Tarsisius Vireta

Computer Teacher

Tangerang. Jan 2023 - Jun 2023

- Digital Literacy & ICT Teacher (K-6).
- Delivered technology education aligned with foundational digital skills and responsible online behavior.
- Designed and conducted engaging ICT lessons, taught computer fundamentals and visual programming using Scratch, and integrated Digital Citizenship principles into classroom activities.
- Adapted teaching methods to support diverse learners and varying skill levels.

PT. Inovasi Solusi Internasional

Junior Programmer - Internship

Jakarta. Jul 2022 - Sep 2022

- Full-Stack Developer (MERN Stack).
- Developed a full-stack web application within a modern JavaScript ecosystem.
- Built database models (MongoDB), implemented backend routing (Express.js, Node.js), and developed responsive front-end interfaces using React.js.
- Collaborated with a small development team to integrate all components into a unified Node.js environment.

PT. Global Media Inti Semesta

Junior Network Engineer - Internship

Jakarta. Feb 2016 - Apr 2016

- IT Support & Network Technician.
- Supported residential and commercial clients with reliable internet connectivity and system maintenance.
- Installed and configured network systems, performed troubleshooting, virus removal, and software reinstallation to ensure optimal system performance.
- Collaborated within a 10-person technical team to deliver efficient installation and maintenance operations.

EDUCATIONS

PT. DumbWays Indonesia Teknologi

Full-Stack Bootcamp

Depok. Jul 2025 - Oct 2025

STMIK Insan Pembangunan

Information System

Tangerang. Sep 2017 - Sep 2021

SMK Bhakti Anindya

Networking and Telecommunications

Tangerang. May 2014 - May 2017
